Endries International Plans Expansion with New Distribution Center in Texas

Endries International Inc., Brillion, WI, USA, a leader in fastener, Class-C components and fulfillment solutions, announced that it will be opening a new, state-of-the-art distribution center in Fort Worth, TX, USA. This significant expansion will double the current capacity, to 65,000 ft², and reinforces Endries' commitment to providing world-class customer service across the region.

The new facility will allow Endries to strengthen its presence in a key geographic market while taking advantage of enhanced logistics and supply chain efficiencies. Strategically located near intermodal yards, the new warehouse will provide faster and more cost-effective deliveries. Also, the establishment of a Foreign Trade Zone (FTZ) within the facility will enable Endries to

more easily navigate the increasingly complex environment of import tariffs and duties. The strategic proximity of this location to West Coast ports and Latin America will provide significant advantages for Endries' southern customers and serve as an efficient staging hub to support our warehouse operations in Mexico.

"Our investment in this new distribution center is driven by our growing business in the region. It reflects our commitment to meeting the evolving needs of our customers," said **Michael Knight**, Endries President, and CEO. "With increased capacity, improved logistics access, and the benefits of an FTZ, we are poised to deliver even greater value to our customers while positioning ourselves for on-going long-term growth." www.endries.com
