2026 Taiwan International Fastener Show Highlights Taiwan's Global Industry Leadership

The *2026 Taiwan International Fastener Show*, organized by the **International Trade Administration (TITA)** of Taiwan and executed by the **Taiwan External Trade Development Council (TAITRA)**, concluded successfully April 24, 2026, at the **Kaohsiung Exhibition Center**. It drew a major influx of industry professionals from key global markets including the USA, Germany, the UK, Italy, Japan, Vietnam, Thailand and Malaysia.

Amid the rising tide of net-zero emissions and industrial upgrading, Taiwan manufacturers received widespread acclaim for advancements in smart manufacturing and high-value applications, for a vibrant networking environment at the show. This robust international participation highlights the resilience and critical importance of Taiwan's fastener industry within the global supply chain.

The "Fastener Taiwan Sourcing Meeting" saw 32 major international buyers from 14 countries engaging in 108 one-on-one sessions with 75 domestic suppliers. The "Global Fastener Forum" provided prominent experts deep insights into market trends and strategic upgrades. The Site Visit gave international buyers firsthand experience of Taiwan's manufacturing excellence with visits to industry leaders. The *Taiwan International Fastener Show* will return in 2028. www.fastenertaiwan.com.tw

wire & Tube 2026: Compelling Solutions for new Global Applications

Despite major geopolitical challenges, disrupted supply chains, high tariffs and scarce raw materials, the fairgrounds in Düsseldorf, Germany, were buzzing with activity during *wire & Tube 2026* last April.

Demand is growing for resilient materials including for the defense industry, along with reliable producers and new supply chains. The defense sector is gaining importance and new visitor groups came to the exhibition to find solutions to meet high demands on materials and quality. The program including several premieres underscoring shows' relevance. With 2600 exhibitors from 65 countries, the shows demonstrated their international appeal/leadership position. The trade fairs showed the entire value chain on some 119,000 m² of

exhibit space in 16 exhibition halls. Focus was on the future including AI, robotics, renewable energies and the energy transition. Visitors came from 130 countries. *wire & Tube 2028* will be April 3 to 7, 2028 in Düsseldorf, Germany. www.wire-tradefair.com • www.mdna.com

Kevin Parins to VP Finance at Wrought Washer

Kevin Parins joined **Wrought Washer** as VP of Finance. Parins brings financial experience in complex manufacturing environments, with a track record of strengthening financial foundations, improving cost accuracy and delivering clear, actionable insight to operations and leadership teams. His background spans stamping, machining and multi-process manufacturing, with expertise in costing, ERP systems, forecasting and operational finance. His hands-on leadership, operational expertise and commitment to developing people will support the company's financial and operational objectives.

EIFI General Assembly in London

The **European Industrial Fasteners Institute (EIFI)** will stage its General Assembly 2026, from May 21 to 23, 2026, in London, England, gathering together members of the European fastener industry for three days of meetings, discussions and networking.

According to EIFI, the annual gathering will provide a forum for participants to exchange views on market developments, industry priorities and the outlook for the European fastener sector. The program is set to include committee and board meetings, market

group discussions, General Assembly sessions as well as a keynote presentation and round table. EIFI noted that the event will once again serve as a central meeting point for its member associations and industry stakeholders.

The organization also recognized the support of the **Confederation of British Metalforming** for arranging the 2026 event in London. EIFI represents national associations across Europe including **ARTEMA**, **ASEFI**, **Deutscher Schraubenverband**, **PSPEZ** and **UPIVEB**. www.eifi.org

Stanley Black & Decker says tariff changes will not impact 2026 guidance

Stanley Black & Decker, New Britain, CT, USA, a global leader in tools and outdoor solutions, announced that it does not expect the recent changes to the Section 232 tariff regime will have a material impact on the company's full-year guidance.

StanleyBlack&Decker

Stanley Black & Decker provided additional information on its first quarter earnings call on the morning of April 29, 2026.

Bulten's EXIM Singapore wins contract to supply kit sets for military vehicle power trains

EXIM Singapore was awarded a contract to supply specialized kit sets to a Singapore-based defense contractor. The total contract value amounts to SEK 21 million,

and the order may, over time, be followed by additional orders. The kit sets will be used in power train systems for military vehicles. The program comprises 51 kitting configurations and includes approximately 125 unique parts. The contract reflects Bulten's continued development of its distribution business through EXIM and supports its expansion within C-parts distribution, with an increasing focus on value-added services such as kitting, inventory management and supply chain solutions.

CELO Expands in Mexico

CELO, a global leader in the design and manufacturing of precision screws, announced the successful launch of the company's new manufacturing facility in Guajalajara, Mexico. CELO has been operating in Mexico since 2013 as a logistics hub and commercial office. Building on this strong foundation, CELO launched its new plant last year, marking a significant milestone in its regional growth strategy and long-term commitment to the market. Located 30 minutes from Querétaro city center, the 2238 m² site has

modern office space, advanced production area and a spacious warehouse designed for operational excellence.

The new facility is certified to *ISO 9001* as well as *IATF 16949* standards and equipped with advanced machinery, offering an annual production capacity of up to 250 million screws. CELO operates manufacturing facilities in Spain, the USA, China, Germany and Mexico, along with 10 logistics centers across four continents. www.celofasteners.com

year), corresponding to an operating margin of 15.3% (12.7% in 2025). Earnings per share were SEK 1.09 (SEK 0.96 last year).

Nord-Lock offers seven new X-series sizes

Nord-Lock launched seven new sizes in the X-series range, making it possible to secure critical joints for even more applications deployed

in extreme operating conditions. The expansion responds to growing demand for the X-series, which now covers new sizes NLX20sp, NLX22 (7/8"), NLX22sp (7/8"sp), NLX24, NLX24sp, NLX27 and NLX27sp.

Utilizing a unique multifunctional design, the X-Series combines the proven wedge-locking technology of the original Nord-Lock® washers with compensation against settle-

ment and reliably securing bolted connections in the toughest environments. This special design allows the X-series to secure bolted joints against thermal cycling, relaxation of soft metals and composites or slackening caused by

assemblies with multiple clamped components.

FIC Honors Rosa Hearn of LSG with Social Media Impact Award

The **Fastener Industry Coalition (FIC)** named **Rosa E. Hearn**, CFS, CPMM, of **Lindfast Solutions Group (LSG)**

as the recipient of its 2026 Social Media Impact Award. Hearn was recognized for her strong and consistent engagement across digital platforms, where she has built a visible and community-focused presence within the fastener industry. Her work has emphasized connecting professionals, sharing industry developments and encouraging broader participation across the sector.

Hearn's efforts have contributed to greater visibility for industry topics and strengthened engagement among professionals throughout the supply chain. The award was presented during a *Fastener Fair USA* in a ceremony in conjunction with an FIC and **Women in the Fastener Industry (WIFI)** session.

The Fastener Industry Coalition (FIC) is a collaborative group of fastener industry organizations working to support workforce development, education and industry promotion.

SPIROL will present live installation workstations where visitors can see and operate equipment as well as have the opportunity to assemble their own custom promotional giveaways, giving them a look at SPIROL technology used in production lines. Additionally, SPIROL's team of application engineers will be available to offer

Volt Industrial Plastics to Close June 1, 2026, in Honor of its Founder Joe Volltrauer

Volt Industrial Plastics will close operations for a day of reflection, gratitude and legacy on June 1, 2026, in honor of its founder, the late **Joe Volltrauer**—a date that holds deep significance for the company and its history. June 1 would have marked Joe Volltrauer's 88th birthday, and marks the 34th anniversary of the company he built from the ground up. In recognition of his vision, leadership and lasting impact, Volt has chosen to pause operations for the day as a tribute to the man whose entrepreneurial spirit continues to shape the organization.

Joe founded Volt Industrial Plastics in 1992 at the age of 54, launching the company on his birthday—a decision that reflected both his personal commitment and his belief in building something meaningful. What began as a focused industrial plastics operation grew into a respected manufacturer known for quality, reliability and innovation in plastic components and fastening solutions.

Colleagues and those who worked alongside Joe remember him as a

hands-on leader with a clear vision and a strong work ethic. He was known for fostering a culture of accountability and pride in craftsmanship—values that remain embedded in Volt's operations today. His ability to identify opportunities, build relationships and lead with integrity laid the foundation for decades of growth/customer trust.

"Closing on June 1 is a small but meaningful way for us to honor Joe's legacy," said **Heidi Volltrauer**, Volt CEO. "Volt exists because of his determination and belief in what this company could become. This day allows us to reflect on where we started and the principles that continue to guide us forward."

While the closure is temporary, the message behind it is lasting: a recognition that the company's success is rooted not just in products or processes, but in the vision of its founder. As Volt Industrial Plastics marks 34 years in business, June 1 will stand as more than an anniversary—it will serve as a reminder of the legacy that continues to drive the company forward.

Sebastian Janas Posthumously Awarded NFDA's Fastener Professional of the Year

The **National Fastener Distributors Association (NFDA)** announced that the 2026 recipient of its Fastener Professional of the Year award is the late **Sebastian Janas** of **Sems and Specials**.

In nominating Janas, **Jennifer Sturm** stated, "Sebastian was a man of his word. Absolutely a high-integrity individual that led his team by example. He was focused on relationships and improving product and process."

Sebastian's interest in fasteners began at age 14, inspired by his father who helped to found **Rumco**. Janas joined Rumco, starting by washing parts and gradually learned every aspect of the business. In 2020, Sebastian was offered the position of President at Sems and Specials, an opportunity he was both honored and excited to accept. His family will accept the Fastener Professional of the Year award in his memory at the NFDA Annual Meeting & ESPS® in Indianapolis, IN, USA, on June 18, 2026.

IWMA Introduces IFSA

IWMA Ltd., Lichfield, England, reports, "We are pleased to share with our members that we are launching a new sister association, the **International Fastener and Spring Association (IFSA)**—a modern, international trade association designed to unite businesses across the fastener and spring industries.

"Developed in association with IWMA, IFSA brings immediate credibility, infrastructure and access to a wider supply chain network. It's not a passive listing. IFSA brings together manufacturers, suppliers and specialists in an active, professional community where businesses can collaborate, share expertise and strengthen industry relationships."

To support the launch, IWMA members are invited to join IFSA as founding members, with free membership for the remainder of 2026 and a reduced annual rate of £250 for 2027.
